

# CIMA Malaysia Timetable

## 2015 Live Online

Timetable information last updated 18/09/15

# Live Online Centre Information

**Email:** [malaysiaenrolments@kaplan.my](mailto:malaysiaenrolments@kaplan.my)

**Website:** <http://www.kaplan.my/>

**Telephone:** (65) 6309 5793

**Centre Manager:** Jim Hinchliffe

Live Online offers you the benefits of the traditional classroom but with the flexibility of the online environment. The lessons are fully interactive, delivered live by our expert tutors, following the same exam focused material and timings as our classroom course.

Just like a real classroom experience with high calibre tutors, immediate interaction and feedback.

Easy to use technology; lectures are recorded so if you miss a session, you can catch up.

Convenient – study from your own home or office, avoid the travel and feel more relaxed in your own learning environment.

Discussion Support – chat live to your tutors and fellow students.

Please note the information and dates in this timetable are subject to change. If you have printed this timetable please ensure you have checked the latest dates online.

# CIMA Certificate Level - Course Information

The next page of this timetable details the courses that our Live Online centre is offering for the Certificate Level for 2015.

The information below shows you the tutors teaching each course; it also gives a key to understand the grids on the next pages.

Subjects

<b>End</b>	Before October 25th 10.30pm MYT
	After October 25th 11.30pm MYT

# CIMA 2015 Syllabus Structure

## 2015 Syllabus Structure

The CIMA Professional syllabus has been updated for 2015.

At each Professional level there are now three Objective Tests (e.g. E1, P1, F1) followed by an Integrated Case Study.

You must progress by level in the order shown in the diagram to the left. To progress to the next level you must have passed all 3 Objective Tests and the Integrated Case Study from the lower level. The 3 Objective Tests within each level can be taken in any order, but must be passed before attempting the Integrated Case Study for that level.

**Objective Tests** - The 9 technical exams (E1, E2, E3, P1, P2, P3, F1, F2, F3) will each consist of 90 minute 'Objective Tests' taken on a computer. These will be available all year around, starting from January 2015. These exams are computer marked so results will be available shortly after the exam.

Objective Tests use a combination of multiple choice, data entry, fill in the gaps and drag/drop style questions. Questions will be selected randomly and will cover all of the learning outcomes within the syllabus.

**Integrated Case Study** - there will now be a case study at each level - Operational, Management and Strategic. These 3 hour computer exams will cover the syllabus from all 3 pillars within the level you are sitting. There will be four fixed exam sittings a year - February, May, September and November. These exams are human marked and results will be available c.3-4 weeks after the exam are held.

The exams will be broken down into timed sections with tasks being set based on 'trigger' information delivered at various points during the exam. The previously unseen trigger information will build on the pre-seen material that you will receive a few weeks prior to the exam. The questions will be discursive, and involve minimal calculations, short answers and essays. Some tasks will also be linked.

# CIMA Course Information

Kaplan offers a range of courses to support and prepare you for your exams

## Tuition

Kaplan tuition courses give you maximum tutor contact time, allowing you to develop the deep technical understanding required to score 70% in the 9 Objective Test (OT) exams.

Tutors will cover key topics in detail, fully explaining the difficult, technical parts, giving you plenty of time to ask questions and interact. We'll also provide you with a range of online resources, via MyKaplan, for you to use outside of class. These will include practice tests, ensuring you are fully prepared for the new style OT exams.

## Revision Plus

Revision Plus courses have a high tech, 21st century feel, matching CIMA's new exam format. You'll attempt questions **online** in class, with tutors accessing live reports on your performance, allowing question debriefs to be truly personalised to your needs.

We've built bespoke online testing software that mimics CIMA's exam environment, meaning that our practice questions look and feel just like the real thing. Not only will our practice questions allow you to identify knowledge gaps, they'll also give you vital experience of the exam software.

During the course, your expert tutor will recap the main topic areas and will focus heavily on exam technique, ensuring you have the understanding and skills required to score 70%.

## Case Study Complete

Case Study Complete courses use bespoke materials for your specific case study, written by the same authors as the Official CIMA text books. You'll know the Case industry inside out!

Your expert tutor will recap all key technical areas in class, using scenario based questions that look just like the real exam, ensuring that you have the understanding and skills needed to succeed.

Kaplan has built testing software that mimics CIMA's exam environment. In class, you will sit two mock exams on a computer, attempting a series of timed tasks that simulate the real exam. Not only will you develop the technique required for this very different exam format, you'll also get detailed feedback on how to improve from our expert markers.

**As Kaplan is CIMA's official publisher, you can be confident that our printed materials have been reviewed and approved by CIMA's academic faculty, meaning they are perfectly designed to get you through each exam.**

**Official CIMA materials are included in Kaplan's Tuition, Revision Plus and Case Study Complete Courses.**

# CIMA Operational Level - Course Information 2015

The next two pages of this timetable detail the courses that our Live Online (virtual classroom) centre is offering for the Operational Level Objective Tests (OTs) and Integrated Case Study Exams in 2015.

The information below shows you the tutors teaching each course; it also gives a key to understand the grids on the next pages.

The final session of the Case Study Complete course will then be a live Q&A session where you can ask any last minute questions ahead of your real exam.

# FREE Study Support Resources

In addition to all the materials you receive on your course and via MyKaplan, we offer free study support on a range of platforms to suit your preferred learning and life style.

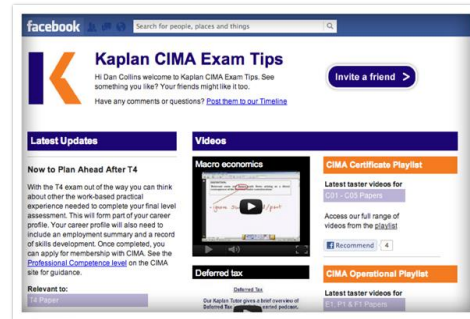

## Kaplan Exam Tips

Find heaps of CIMA exam and topic based tips, videos, puzzles and more to support your revision. Plus, Kaplan Exam Tips will help you stay focused with all our CIMA materials organised by each exam paper! Get FREE access to:

-  Masterclass videos
-  Exam Tips
-  Forums for your exam paper

## Kaplan CIMA Exam Tips App

Use our Facebook app and keep up to date with the latest CIMA news and materials to support your studies. Our Facebook app is crammed with tips and information including alerts and tasters of new materials from the following resources:

- ✓ Kaplan Exam Tips website
- ✓ Kaplan Financial Knowledge Bank
- ✓ Upcoming events from Masterclasses to Open days
- ✓ CIMA Global

## Masterclasses

Our Masterclasses are FREE hour-long sessions which focus on tricky syllabus areas or general exam techniques. These may be delivered through our Classrooms or Live Online and are designed to help you get the most out of your studies.

**Look out** for new dates and topics of the next series of Masterclasses **arriving in 2015!**

## Kaplan Financial Knowledge Bank

Whether you're learning a topic from scratch, or need a quick reminder, our Knowledge Bank will provide you with the answers for FREE, with articles on topic essentials, sample calculations, processes and more!

**The Knowledge Bank holds over 300 accountancy topics**, from "accounting for overheads" to "zero based budgeting", giving you the option to browse whole areas of accountancy or drill down into specific concepts.
